EXPERIENCE

Ohio University (OIT), Student Software Engineering Intern — Athens, Ohio April 2024 – Present

- Built and maintained full-stack web applications using TypeScript, improving scalability and responsiveness for student-facing tools.
- Designed and implemented backend features with Hapi, Joi, and Knex, delivering structured SQL solutions for reliable data management.
- Enhanced system reliability through unit testing and optimized routing, reducing errors and improving maintainability.

Ohio University (OIT), Software Engineering Intern — Athens, Ohio April 2025 – August 2025

- Upgraded and maintained production web applications (Angular, Node.js, SQL) actively deployed and used across Ohio University.
- Leveraged Docker, Scaffold, and Kubernetes to containerize, test, and deploy apps on the university's internal cluster; automated builds and deployments with GitHub Actions CI/CD.
- Designed, developed, and deployed a new customizable web app, improving usability and adoption by faculty and students.
- Restored a critical Docker-based Node.js training project, reviving onboarding for future interns and updating documentation.

Ohio University, Engineering Ambassador (Computer Science) — Athens, Ohio March 2025 – Present

- Represents Russ College of Engineering & Technology by leading tours, promoting programs, and engaging with prospective students, alumni, and donors.
- Strengthened communication and leadership skills through public speaking, outreach, and collaboration with university leadership.
- Nominated by Faculty and selected by a panel of Engineering Ambassadors.

PROJECTS

Virtual Reality Game, Lead Developer — Athens, Ohio January 2025 – May 2025

- Led development of *Alchemy Artisans*, a Unity 3D VR game for Oculus featuring object interaction and a handwritten crafting system.
- Implemented a tag-based item recognition system, automatic item respawns, and a player-driven crafting economy, enabling users to fulfill customer requests and earn in-game currency for shop purchases.
- Coordinated a team of four throughout a semester-long project, delivering a fully integrated and showcased VR experience.

Workload Estimator for Ohio University, Lead Developer — Athens, Ohio April 2025 – August 2025

- Developed a responsive Custom Workload Estimator using TypeScript and Vite, allowing users to input tasks, customize categories, and calculate time commitments in real-time.
- Deployed the app on GitHub Pages with a fast, single-page architecture optimized for usability and cross-device access.
- Bundled the project and published it as a reusable library, extending functionality beyond the web app.

Personal Portfolio & AI Developer Tools, Independent Developer July 2025 – Present

- Built and deployed a full-stack portfolio site (React, TypeScript, Vite, Render, GitHub Actions) with clean, automated builds (ESLint/Prettier).
- Integrated a custom AI chatbot (OpenAI, Express, Node-Fetch, CORS, Dotenv) that answers questions about my skills, projects, and experience, creating an interactive resume experience.
- Developed two specialized AI reviewer modes — *CSS Reviewer* (detects redundancies, suggests styling improvements) and *Code Reviewer* (offers optimization guidance), boosting developer productivity and code quality.

EDUCATION

Ohio University — Athens, Ohio May 2027
Bachelor of Science in Computer Science
Certificate in Project Management
Cumulative GPA: 4.0

TECHNICAL SKILLS

Languages: C/C++, Java, JavaScript, Python, TypeScript, C#, SQL/SQLite

Front-end: React, Angular, HTML/CSS, Vite, Tailwind

Back-end: Node.js, Express, Hapi, Joi, Knex, REST APIs

DevOps & Tools: Docker, Scaffold, Kubernetes, Render (Cloud Hosting), Git/GitHub, GitHub Actions (CI/CD), JIRA, NPM, VS Code

AI & Data: OpenAI API, AI chatbot development, SQL optimization

Other: Unity3D, Oculus SDK, Agile Development, Unit & Integration Testing (Jest/Node.js), Database Design
